

## VET Research at CIT

On Friday 30 October the Canberra Institute of Technology (CIT) hosted Canberra's OctoberVET event for 2009.

This year's event featured action research projects that have enhanced teaching and learning practice by CIT staff studying the Advanced Diploma of Adult Vocational Education as well as staff completing Master thesis work from across CIT who have been involved in VET research in their departments or as a part of their course of external study.

Topics included:

- digital images in learning
- LLN in hairdressing
- sharing resources
- online learning in sport and fitness
- contextualised learning
- virtual worlds in health and community services.

Participants at the CIT OctoberVET
